

UNDERGRADUATE EDUCATION POLICY COMMITTEE

Resolution to Recommend Approval of the RME to Change the Specialization Names in Geography and Environmental Resources

WHEREAS the College of Liberal Arts has proposed a change of specialization names in Geography and Environmental Resources without changing any of the academic aspects approved for the current specializations; and

WHEREAS the request for the name changes of Environmental Resources and Weather and Water Resources do not actually reflect the content of these specializations nor are they in sync with the terminology currently used in the profession and job market; and

WHEREAS the specialization in Environmental Resources should be changed to Environmental Management and that of Weather and Water Resources to Climate and Water Resources, as both changes provide accurate terms for the major and the content of the programs.

THEREFORE BE IT RESOLVED, that the Faculty Senate recommend the approval of the RME to change the specialization names in Geography and Environmental Resources.
