Those units with empty seats were reopened to the nomination process and 3 of the 5 seats had nominations. Rader stated an email will go out today to those units voting and the two open seats will be filled this fall once faculty are back on contract. B. Rader announced the officer position of FS Secretary was still open with one nomination, Julie Tate. Senator Tate’s information was sent out and a Survey Monkey link will go out for voting. B. Rader stated that only Faculty Senators are eligible to vote, ex-officio and guests are not. J. Frick sent the link for voting in the chat. All Faculty Senators were asked to open the link and vote for the FS Secretary position.

V. Q and A Session with Chancellor and Provost
A. Chancellor Austin Lane – K. Meksem asked if SIUC is rushing hiring school directors without having a unit’s updated operating paper in place. Chancellor Lane said some hires have been stalled and they are currently working on this. Meksem then shared a concern pertaining to block voting “vote fixing” when it comes to hiring academic/administrative positions and advocated that anyone willing to serve should have a fair chance. Chancellor Lane agreed and said if it’s not fair it should not move forward. The Chancellor said the deans should be made aware of this along with the Ombudsperson. J. Sherry commented how important and moving it was for the posthumous degrees to be awarded at the commencement ceremony. Chancellor Lane thanked the faculty and deans in this group effort. E. Jurkowski asked for an enrollment update. Chancellor Lane stated he is cautiously optimistic as enrollment is up and looking promising but still a lot of work to do. M. Eichholz asked if SIUC monitors data for the students admitted but that didn’t enroll, as it had been done in the past, to figure what other universities we compete with for students. Chancellor Lane said we know exactly who we’re competing with but one factor that’s not mentioned in our competition is community colleges. The Chancellor said about 14% of admits go to community colleges and that’s why SIUC has been signing agreements with the Saluki Step Ahead. G. Miller stated that in his school, the majority of students are transfers and it seems data and enrollment management workshops focus on the freshman class and not in other aspects of enrollment recruitment efforts. The Chancellor stated that this is a concern and they do have some incentives to help in the transfer population. K. Meksem suggested having a ranking system or being more inclusive in evaluating candidates for open positions. Chancellor Lane was open and asked for shared thoughts and ideas that can improve the process. The Chancellor thanked everyone that attended commencement and how excellent the interaction been students and faculty was. Chancellor Lane also acknowledged the hard year SIUC has had with student deaths, COVID, and praised everyone on the call for there help and support. He discussed paying back the reserve with the extra 5% increase for the FY22 budget and will be proposing to the BOT a 2% raise increase across the board with the extra 5% increase for FY23. The
salary survey is continuing with Civil Service, A/P Staff is completed, and the faculty piece is starting.

Fletcher added that the Faculty Association continues to support Ming in the disciplinary action that SIU has taken and that he has excellent representation from an Illinois Education Association attorney. The Faculty Association will continue to urge the administration to drop their disciplinary action and are currently in consultation. M. Meksem asked the FS if they were in favor in hiring permanent directors without units having updated operating papers and hiring them under the current schools operating papers. M. Eichholz said his school is moving forward and stated it should be up to each unit on how they move forward. W. Metz said it should wait in their school. Metz feels that without having a permanent dean, that they should have input on hiring a director.

H. VC of Research: Gary Kinsel – G. Kinsel reported in quarter three they had about 90 proposals submitted, totaling 272 year to date, which is a 9% increase over last year. Also, looking at updating software that has already been preapproved. Y. Lee asked why SIUC doesn’t have a Technology Transfer Director. G. Kinsel said they have a director, Rob Patino, that operates at the system level and the person on campus is Dan Ashbaugh. Dan helps with disclosures, CDAs, agreements, reviews, and is on campus in Woody Hall. Y. Lee followed up and asked if SIUC should have their own director on campus. G. Kinsel said more legal trained individuals are needed and would not disagree to have someone on campus. K. Meksem addressed concern on the time it takes to establish a budget purpose after receiving a grant. Meksem suggested more staff being familiar with the process of advanced accounts and also asked how to motivate the people that seem not to care. G. Kinsel said the budget purpose is created by central accounting and some
situations have been encountered. Kinsel agreed with Meksem on his suggestion for more education across campus as an option. L. Ritchie said she has students interested in working in intellectual property and contracts and one student in particular is working with the office on campus over the summer.
